The introduction of vitamin A into the formulation of skin care products heralded a new era in the treatment of sun-damaged skin. Although some cosmetic houses were using very low doses of vitamin A in their skin care products in the 1980's, Dr Fernandes, a prominent Cape Town plastic surgeon, was one of the first people in the world to introduce vitamin A in high effective doses. This range established Environ as a leader in skin care.

Your current medical conditions are important for our Therapists to ensure you receive the correct treatment, so please share.

Established since 2001 serving locals and visitors, our Qualified Beauty Therapist will care for all your beauty requirements, whether it be your defuzzing or helping you get your skin & body looking great, why not come down to say "hi" or just to check out what is happening down at the Marina for our weekly specials...

Have a wonderful day!
